REASONS FOR ALLOWANCE

The following is the Examiner's statement of reasons for allowance:

The prior art does not disclose or adequately suggest a treatment apparatus comprising the instantly claimed arrangement among a first hermetic chamber having a first opening, a first hermetic door, a tube having a second opening and third opening, an exhaust system having an exhaust opening, and a cooling section. The closest prior art to Bassereau (see figure) discloses a hermetic chamber (1) having a first opening, a hermetic door (9), a tube (4a) having a second opening (facing the chamber 1) and a third opening (4c), an exhaust system (not shown) having an exhaust opening (7a), and a cooling section (5) for cooling the tube to allow for the condensation of metallic vapor within the tube. Bassereau, however, fails to disclose or adequately suggest the positioning of the hermetic door (9) between the second opening and the third opening (4c) of the tube (4a) when the tube is inserted into the first opening of the hermetic chamber (1), and the positioning of the hermetic door (9) between the first opening of the hermetic chamber (1) and the cooling section (5). In addition, the exhaust opening (7a) is located a far distance from the third opening (4c), and not opposed to the third opening (4c) as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
